Office Action Summary

Art Unit: 1774

1. Claims 1,2 and 4-6 are again rejected under 35 U.S.C. 103(a) as being unpatentable over any of the patents to Sogabe et al., Hayashi et al. or Nakamura for the reasons of record.

At column 5, lines 20,21 and 30, the use of candellila wax in the release layer is clearly taught. As noted in the last action, the experimental modification of the prior art in order to ascertain optimum operating condition (e.g. determine compositional proportions and resin melt index) fails to render applicants' claims patentable in the absence of unexpected results or a showing of result – effectivity. To date, no such evidence has been submitted.

2. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

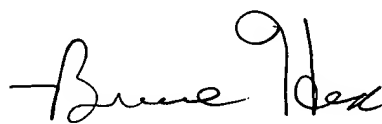

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
